

### **Qualifications approved for direct entry to AssocSCSI – as of April 2024**

The qualifications listed below are approved for direct entry to AssocRICS, subject to the stated conditions.

All applicants must:

- have one proposer who is AssocRICS (with four years' relevant experience post-AssocRICS), MRICS or FRICS
- successfully complete the RICS Professionalism (ethics) module.
- provide a CV/resume setting out their relevant experience\* and may be asked to provide their CPD record.
- provide a letter from the professional body (where applicable) confirming membership is up to date and there are no regulatory matters ongoing or sanctions awarded against the applicant. This should include confirmation of how the applicant gained the qualification.

RICS reserves the right to decline direct entry. In such cases, applicants will be required to undertake the most appropriate RICS assessment.

When applying through a direct entry, applicants are asked to confirm how they gained the approved qualification. If this was by way of a third-party arrangement which is not RICS-recognised, the applicant will be referred to the most appropriate RICS assessment.

Only the named qualifications on this list have been evaluated for direct entry purposes. We are not able to accept qualifications considered by a third-party to be equivalent.

**\*Please note – some direct entry arrangements include a condition that requires applicants to have a period of relevant experience. Where this is stated, RICS defines “relevant experience” as full-time and relevant to the RICS competencies as set out in the RICS pathway guide the direct entry route is approved for. If you have any questions about the relevance of your experience, please contact us.**

Pathway	Country	Professional body / qualification
<b>Building Control</b>	<b>UK</b>	Chartered Association of Building Engineers (CABE) – C. Build E MCABE designation (approved July 2011)
		Chartered Institute of Architectural Technologists (CIAT) – MCIAT designation (approved November 2011)
